SLIMMING TREATMENTS

Our 3-STEP Slimming Concept — Analyse, Treat, Care — combines modern body analysis, non-invasive laser based treatments, lymphatic body reset treatments and infrared therapy for targeted fat loss. We create personalised plans, celebrate real results, and support long term success with LipoSculpt home care and meal plans.

INBODY SCAN - R200

1 Test. 100% You. Understand your weight, track your progress and reach your goal with this innovative technology.

ENDOSPHERE TREATMENT - R550

Mechanical Stimulation, Cellular Renewal

Endosphere Therapy uses compressive micro-vibration technology to stimulate circulation, activate lymphatic drainage, and restructure connective tissue. The treatment specifically targets cellulite by improving tissue oxygenation and breaking fibrotic adhesions, resulting in smoother skin, refined contours, and improved firmness — a non-invasive solution designed for visible body sculpting results.

INFRARED THERAPY - R490

Infrared therapy promotes fat loss, enhanced detoxification, and improved circulation, stimulates the lymphatic system and enhancing your body's natural ability to burn 600 calories in 30min. Excellent for pain relief therapy.

SCULPSURE – NON-INVASIVE FAT REDUCTION & BODY CONTOURING - R1 990

SculpSure is a laser-based, non-invasive lipolysis treatment designed to permanently destroy fat cells in just 25 minutes. This advanced technology targets stubborn fat, enhancing body contours without surgery or downtime—just visible, lasting results.

RF SKIN TIGHTENING – LIFT & FIRM - SMALL R1 090 | MEDIUM R1 300 | LARGE R1 530

Radiofrequency (RF) treatment stimulates collagen and elastin production, tightening loose, sagging skin while improving firmness and elasticity. This non-invasive treatment smooths finelines, reduces wrinkles, and contours the face or body for a lifted, youthful appearance. Experience firmer, rejuvenated skin with no downtime and visible results over multiple sessions

LYMPHATIC BODY MASSAGE - R650

Our Lymphatic Body Massage uses precise rhythmic techniques to stimulate lymph flow, reduce fluid retention, and eliminate metabolic waste. By improving circulation and supporting natural detoxification, it helps refine contours, smooth cellulite, and leave the body feeling lighter and energised — working in harmony with your physiology.

SLIMMING BODY WRAPS - R660

Boost your cm loss and detoxification with our LipoSculpt Slimming Body Wraps. Choose Thermo Gel for enhanced fat burning and cm loss, or Detox Balance body oil to reduce water retention and inflammation. This treatment improves circulation, firms skin, and accelerates detox, leaving you feeling lighter and more sculpted.

FARADIC & EMS BODY TONING R170

Faradic (EMS) uses electrical pulses to stimulate deep muscle contractions, mimicking an intense workout. It firms, tones, and sculpts targeted areas while boosting fat loss, circulation, and cellulite reduction. This non-invasive treatment enhances muscle definition and metabolism, delivering visible results in just a few sessions

MICROSKIN

Mother Nature Approved.

MicroSkin — Reveal Skin That Looks Naturally Beautiful

MicroSkin is a luxurious cosmeceutical skincare range expertly formulated for South African skin and environmental conditions. Developed by biochemists and pharmacists, each formula blends rare botanical extracts, therapeutic aromatherapy oils and advanced peptide technology to intelligently support the skin's natural function.

Designed to target barrier damage, redness, inflammation, dark spots and pigmentation at the source — not just on the surface — MicroSkin helps restore balance while enhancing clarity, smoothness and visible radiance. Experience skin that feels healthier, looks brighter and ages beautifully.

ADVANCED SKIN TREATMENTS

ADVANCED SKIN ANALYSIS - R200

Reveal your skin's true condition with our Advanced Skin Analysis. This in-depth skin scan detects 10 key skin concerns, providing instant, accurate results. Includes a basic cleanse to refresh your skin and a MicroSkin Sample Set, helping you start a targeted skincare journey for a healthier, more radiant complexion.

MICROLASER FACIAL - DEEP CLEAN & HYDRATE 45min - R790

MicroLaser deeply cleanses, exfoliates, and hydrates, leaving your skin refreshed, radiant, and smooth. It unclogs pores, removes impurities, boosts hydration, and reduces fine lines for an instant glow. Perfect for all skin types, delivering visible results after one session with no downtime. Your skin, renewed!

MICROLIGHT 20min - R390

MicroLight is LED (Light Emitting Diode) Phototherapy that utilises clinically proven wave lengths to accelerate the rejuvenation of the skin by boosting collagen and elastin production.

SPECIALISED SKIN TREATMENTS

DEEP CLEANSE FACIAL (IDEAL FOR TEENAGERS) - R690

Cleanse, exfoliate, extractions & high frequency
MicroSkin Acne Set for teens

FLAWLESS SKIN

Natural. Beautiful. **You.**

DERMAPLANING WITH MICROLIGHT LED - SMOOTH & GLOW - R600

This exfoliating treatment gently removes dead skin cells and fine hair, leaving your skin ultra-smooth, brighter, and more radiant. The added MicroLight LED therapy boosts collagen production, reduces inflammation, and enhances skin healing. Completed with a MicroSkin Sample Set, ensuring optimal hydration and a glowing, refreshed complexion.

ADD - ON TREATMENTS

SOLUTION FOCUSED MASK	R 150
EXTRACTIONS	R 100
HIGH FREQUENCY	R 150
DERMAPLANING	R 400
BROW SHAPE & TINT	R 220
BROW SHAPE	R 110

MICRONEEDLING

Boost your skin's natural production of collagen and elastin with collagen induction therapy. Experience toned, firmer and visibly improved skin condition. This aesthetic treatment addresses specific concerns such as hyper pigmentation, scarring, stretchmarks and the effects of skin aging. You will see remarkable results! Each microneedling treatment is done in combination with a MicroLight treatment. This value - add combination means visible results sooner!
